

Fire Service Area Coverage (minutes) - (Perquimans, NC)

This map shows estimated 5, 10, and 15 minute drive-time service areas from selected facilities within Perquimans County, North Carolina.

Drive times are calculated along the county road network using a travel-time impedance based on posted or assumed speeds. The polygons represent areas that are reachable by vehicle within each time band under typical conditions, and are intended for planning and general accessibility assessment rather than precise operational prediction.
